

“Time was of the essence on the completion of this project. We needed a material supply partner that we could rely on to get our materials to us on time and under budget.” – Jimmy Dent, Superintendent - KMI

GENERAL CONTRACTOR: KBR Building Group

MASONRY CONTRACTOR: Koontz Masonry Inc.

PROJECT LOCATION: Burlington, NC

PRODUCTS: Manufactured Stone and Precast

PROJECT DESCRIPTION: KMI and Marshall Stone Inc worked together on the masonry work for this building. Brick, Block, Stone Veneer, and Concrete Precast were all combined to create a facility that Cone Health and the Burlington community could be proud of. Time is important on all commercial projects – on this project, sub-contractor completion dates were paramount to the success of the job.
