

“The landscape accents and outdoor kitchen on this job presented us with a unique challenge as commercial masonry contractors. Marshall Stone had developed blends of stone to meet customers’ desires for us before. Once again, we were successful finding a blend that worked for this project.” – Brent Moore, Project Manager - KMI

PROJECT LOCATION: Union Cross Rd - Kernersville, NC

PRODUCTS: Natural Building Stone, DCS Outdoor Appliances

PROJECT DESCRIPTION: KMI was able to turn the outside areas of a large industrial building into an inviting landscape for customers and employees. This project included a number of raised planter beds to accent the building and an outdoor recreational area for the CAT staff. The stone was comprised of a number of products from as far north as New York and as far south as North Carolina. Marshall provided outdoor kitchen appliances and accessories as well.
