

**“The owners of this project had a particular look in mind – we found the material that they wanted and worked with the architect to develop an installation method. We gave the owner what they wanted, installed materials above industry standards, and stayed within the GC’s budget.”**

– Brian Ferguson, Project Manager – Marshall Stone Inc.

**PROJECT LOCATION:** Winston Salem, NC

**PRODUCTS:** Custom Natural Stone Veneer

**PROJECT DESCRIPTION:** Installation of stone cladding for receptionist desk, president’s reception desk, and elevator lobbies in a 5 story corporate office for Piedmont Federal Savings Bank. These areas were the focal points and the first thing customers see upon entering each floor. The highest standards for workmanship and quality of materials were required. Marshall Stone Inc. completed the project in the specified timeline and within budget.
